

## Take a Nature Walk & Build an Owl Nest!

Take a walk or just spend some time in your yard. Your child can collect twigs, leaves, feathers, grass, weeds, etc.

Then your child can use the natural items they've gathered to build a bird's nest, just like how they helped the owl in *This is Owl* build a nest!

You can use the journal page below to help your child think about their process while they engage in this activity.

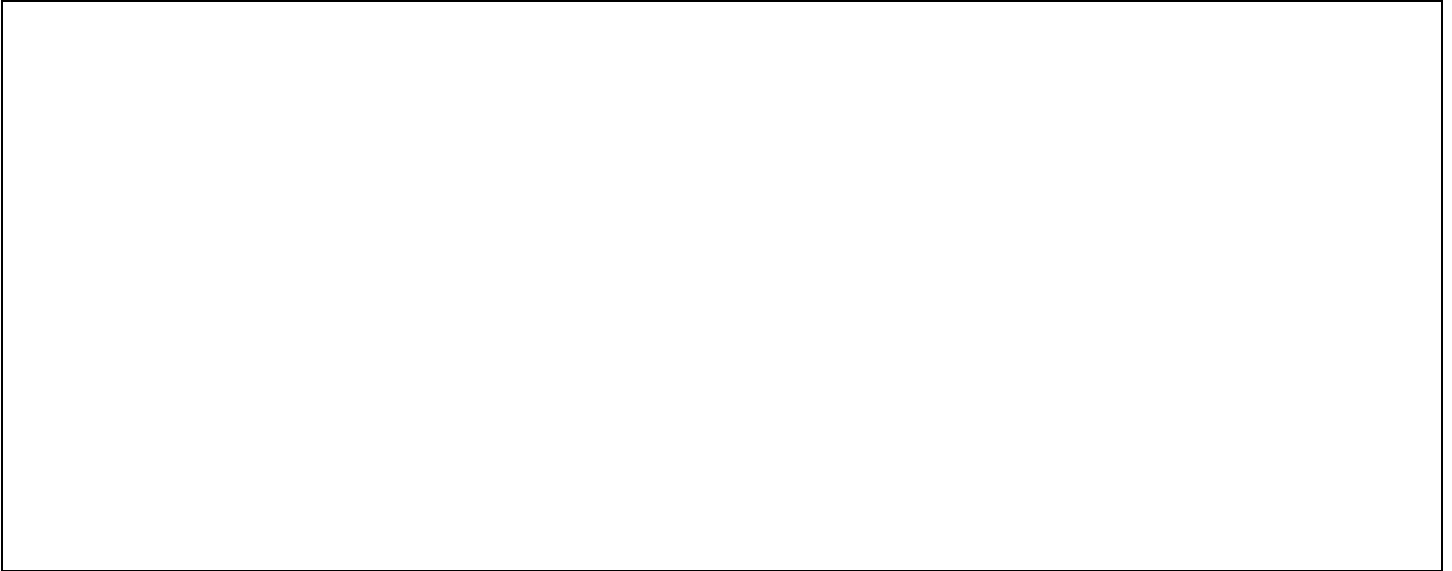

**Plan:** First your child can think about and write or draw about what materials they are going to be looking for and collecting.

**Do:** Then they can go on their nature walk, collect materials, and build their nest.

**Review:** Last they can finish the journal page by drawing a picture of their nest and sharing it with someone in their family.

Name \_\_\_\_\_

**What items do you think will be good to build a nest?**

---

---

**Draw a picture of your nest:**
